To Build Fireproof Sub-station.

Village meeting last evening passed into history with scarcely a ruffle. The following list of officers were voted in without objection, the list being an exact duplicate of last year's board with the exception of two auditors, who replaced two who could not serve. Moderator, F. D. Thompson; clerk, L. M. Hubbard; trustees, E. W. Barron, C. A. Barrows, F. W. Cutting; treasurer, F. D. Pierce; collector, G. E. Jennings; attorney, F. D. Thompson; water commissioners, J. F. Hatchelder, A. A. Larabee, E. C. Colliston; chief engineer, Homer Rushford; first assistant, Fred E. Richmond; second assistant, E. R. Cook; auditors, C. E. Hamblet, C. S. Webster, Franz Hunt. The village tax raised was the same as last year, 55 cents. It was voted to pay the same as last year \$12 per light to the electric light department, for the street lights, \$200 was voted for the library and \$275 for the band as usual. Members of the fire department were allowed the regular 25 cents for attendance at roll calls and 50 cents for work at fires.

The matter of a fireproof sub-station brought out very little discussion and it was voted to buy a site and the trustees were instructed to build a suitable station. The article on uniform system of accounting was passed over. It was voted after some discussion to give the town treasurer 15 per cent of the corporation road money for use on town roads providing Orleans village voted to do the same. The question of surplus money in the water department was given into the hands of the water commissioners, who were instructed to pay over to the village department such funds as they deemed wise to spare. A sidewalk discussion closed the meeting and voters were out of the hall at 9 o'clock.

FOR LOCAL BASEBALL.

Each season there is considerable baseball agitation in town and almost all of us are ready to admit that a base ball team in the village is a real factor toward town growth and prosperity. We have had several ball teams that, while a credit to the town, were too expensive to maintain, that is they cost a few men in subscription more than could easily be borne, but even before the advent of the professional ball team in Barton the town maintained a very creditable team and won its percentage of the local games in fact for many years we have been known up and down the line as being a base ball town and in the past two years, when there has been no local team, we have furnished material to other towns, which has helped them win games.

Why can't Barton have a local base ball team? There is only one answer to the question. It can have, if local talent are interested in the sport and do not consider a matter of dollars and cents. It is hardly to be expected that our young men, who naturally are working, will give their time to base ball exclusively, but on the other hand, most of our local talent can be induced to play by simply paying for their lost time, a matter of perhaps \$2 per game and it is reasonable to hope that the townspeople may come forward with a subscription, not several hundred dollars, and not in lumps of \$5, \$10 and \$25, but there are presently a number of townsmen who will subscribe from \$1 to \$5, or the maintenance of a purely local team. The idea advanced this season is by far the best one for some years, and that is to form a small league with Irasburg, Orleans, Newport, Lyndonville, and Derby Line, with others like North Troy and St. Johnsbury and make all players in order to be eligible to the teams, residents of the towns in which they play. It would certainly give us several good ball games during the season and we should not be outclassed by these teams, neither should we be any better than the others.

Indefinitely these days must be lazy days indeed if we cannot get a crowd of local fans to attend games at the fair grounds. There are a hundred automobile in town and vicinity, but even if you have to walk over there, it probably would be just about the sort of medicine, you would pay your doctor a dollar or more to prescribe. Save the dollar and pay it in at the admission gate. If you are not much interested in the great National game, it's time that you were and it's a big lot better than fighting the Germans.

We can mention the names of several young fellows here, who can play snappy ball and who are willing to play for a very small sum per game, just a case of pay for a lost day and you can honestly do anything for the same amount of money that will keep the town on the map, like having a local team, not a paid bunch of professionals but town and school boys. Well, what's the answer?
